**4.00: Launch of the event to commemorate 10 years since Anita Roddick's death in September**

**4.30: Tea and cakes**

## "Speak Up" on World Hepatitis Day

Please join us on World Hepatitis Day. We have a packed day full of patient experiences, presentations and films.

- There will be an opportunity to take part in the international elimination campaign NOhep and hear hepatitis C voices from across the world.
- Hear a range of personal stories, their individual experiences of the impact, treatment and living with hepatitis C – there will be plenty of time to ask questions and find answers.
- After lunch we will hear from Professor Graham Foster, one of the top liver consultants in the country on where we are today and what we can expect in the years to come.
- Dr Magdalena Harris will share her story of bridging the gap from being diagnosed and treated to her extensive work as a researcher investigating the lived experience of the hepatitis C community.
- With concerns about the huge number of people who are still undiagnosed and unaware of their hepatitis C, we look forward to spending a session hearing from you about how you were diagnosed and what you think might be the solutions.
- At the end of the day we launch the beginning of our plans to commemorate the 10<sup>th</sup> anniversary of our former Patron and the founder of The Body Shop, Anita Roddick.
